MEMORANDUM FOR: Deputy Director (Intelligence)

In recent discussions with [redacted] Comptroller's Staff regarding our need for securing "bare bones" estimates on individual projects, it was evident that there was some confusion regarding our budgetary relationships with them. It, therefore, appeared desirable to prepare the attached, to be used on an informal basis, to assure that there is no misunderstanding of the ground rules governing the control of funds. The intent is to give [redacted] the maximum flexibility possible and yet meet FRC and other Agency requirements. The Comptroller's office has informally concurred in the statement. We would appreciate any reactions you may have to it.
